SKEANIE shoes and boots are designed to nurture and protect little feet. Hand-crafted from high-quality genuine leather, SKEANIE is a Preferred Provider of The Australian Podiatry Association (NSW).

The company recommends that children remain in the Infant Range until they have been walking independently for at least eight weeks; thereafter they may transition to the Junior Range.

And new from SKEANIE is the Skirtle, a cute combination of a skirt and tights!

Snugglesbum is one of Australia's leading sleepwear providers, keeping babies and children warm through the chilly Australian winters.

The super-soft, 100 percent cotton sleepwear comes in a great range of styles and prints for both boys and girls. The winter range includes the ever-popular two-piece longjohn and Snugglesbum's signature all-in-one, designed with a handy full-length zipper, making for easy changing and a better night's sleep for everyone.

All the sleepwear is created with extra length in the body and pant to allow babies room to move and grow. Sizes range from newborn all the way up to 14 years and all the sleepwear is fully machine washable.
